RE: Industrial Waste Disposal Co., Inc. - Disposal Sites

Dear Sirs:

Section 103(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("Superfund") requires certain persons to notify the Environmental Protection Agency by June 9, 1981, of the existence of hazardous waste facilities. Industrial Waste Disposal Co., Inc. ("IWD") has transported commercial, industrial, and municipal solid wastes to the sites listed on the attached appendix. As some of these wastes may be subject to Resource Conservation and Recovery Act regulations, and the Superfund law imposes heavy penalties for failure to file a notification when one is required, IWD is submitting this letter to fulfill its reporting obligation under Section 103(c) of the Superfund.

We are not in possession of reasonably available records which would indicate the specific areas, types and quantities of "hazardous" wastes disposed at these sites. Moreover, because any such hazardous wastes would have been disposed of in connection with much larger quantities of solid waste, which EPA has classified as non-hazardous, there are no reasonably available records which would accurately reflect quantities of hazardous waste which might have been delivered to these sites. However, we believe the preponderance of the small amount of hazardous waste which may have been disposed at these sites would have come from generators of small quantities of hazardous waste. Such wastes are excluded from regulation under the EPA hazardous waste management program when they are disposed at a facility which is permitted and licensed to manage municipal or industrial solid waste.

If you would like further information concerning this matter, please contact me.

Sincerely,

*Request*  
  
Michael J. Quigley  
Division Manager/Solid Waste Collections
